Orange

# Trolley configuration

## STEP 1 - Trolley structure

Choice of trolley structure according to inside panel models

| Trolley Height 100 cm*                |                                         |
|---------------------------------------|-----------------------------------------|
| Standard inside panels<br>40 mm level | Inside panels<br>for telescopic drawers |
| 8Y244H100P4                           | 8Y244H100T                              |

This reference includes:

- **Structure**
- **Wheels**
- **Inside panels**

## STEP 2 - Trolley Customization

Selection of elements 1 to 4 is compulsory

*Closure system, locking system and colour strips must be double ordered for a double-column trolley*

|   |                |                                                                                                  | Trolley with standard<br>inside panels<br>ref. 8Y244H100P4 | Trolley with inside panels<br>for telescopic drawers<br>ref. 8Y244H100T |
|---|----------------|--------------------------------------------------------------------------------------------------|------------------------------------------------------------|-------------------------------------------------------------------------|
| 1 | Upper shelf    | compact laminate                                                                                 | 8Y001_4400CP2                                              | 8Y001_4400CP2                                                           |
| 2 | Closing system | Roller shutter door                                                                              | 8Y002_4010F3                                               | -                                                                       |
|   |                | Door wing for telescopic<br>drawers                                                              | -                                                          | 8Y002_0010F2                                                            |
| 3 | Code lock      | For roller shutter door                                                                          | 8Y003CODE3                                                 | -                                                                       |
|   |                | For door wing for telescopic<br>drawers                                                          | -                                                          | 8Y003CODE2                                                              |
| 4 | Colour         | Magenta Pink  | 8Y004_0010RM                                               | 8Y004_0010RM                                                            |
|   |                | Apple Green   | 8Y004_0010VP                                               | 8Y004_0010VP                                                            |
|   |                | Sky Blue      | 8Y004_0010BC                                               | 8Y004_0010BC                                                            |
|   |                | Orange        | 8Y004_0010OR                                               | 8Y004_0010OR                                                            |

\*For precise height of working surface, see technical data

## STEP 3 - Accessories and internal fittings

Standard rail, ergonomic handle, arm for laptop, upper frame, drawer...

*Please refer to product data sheets.*
