

Internal pharmacy equipment range

Optistock® mobile and fixed shelving system

Photos non contractuelles

The OptiStock® range has been designed for **back-up storage** of sterile or non-sterile materials, which are either packed or unpacked.

This range is used in all wards (including internal pharmacies), but particularly for CSSD and operating theatre due to its unique features concerning hygiene.

It enables the ideal configuration to suit the management methods currently applied in healthcare establishments, such as allocation or KanBan.

Hygienic

Ergonomic

Advantages

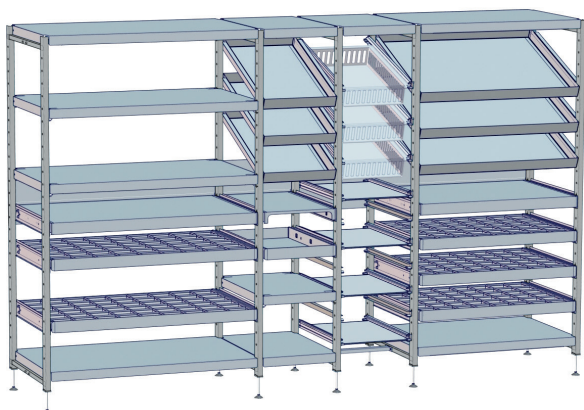

- ▶ Removable and reversible guides
- ▶ Products are available on both sides
- ▶ Many available models: 400, 600 and 1200 faces
- ▶ Resistance: 200 kg / frame

Internal pharmacy equipment range

Optistock® mobile and fixed shelving system
